

Quantum 70

Wireless Control Panel

The Quantum is a fully integrated, wireless control panel using HKC's SecureWave, two-way technology. The on-board horizontal and vertical antennas mean that all signal paths will demonstrate exceptional end-device range. With an integrated keypad, siren and WiFi module, installation will be very quick and easy. Also, the aesthetics and elegant design lines mean that it can be mounted anywhere in the premises.

868MHz Radio

Quantum 70

Wireless Control Panel

Technical details:

- 70 two-way wireless Detectors*
- 2 two-way wireless Internal Sirens*
- 2 two-way wireless External Sirens*
- 32 two-way wireless Keyfobs*
- 1 two-way wireless Keypad*
- 32 Users
- 2 Block Capability
- 1 Hardwired Zone (expandable to 10 point ID devices)
- Hardwired SABB External Bell Output
- 999 event engineer log
- Integrated Keypad
- Integrated Internal Siren
- Integrated WiFi Module for SecureComm APP
- Integrated backup Battery
- Integrated Speaker with Extensive Voice library
- Ability to convert zone descriptions to voice
- Serial Interface
- USB (device)
- Full Suite of End Devices including Contacts, Inertia Sensors, PIRs, Keypad, PA units, Smoke, Heat and Carbon Monoxide Detectors
- Audible Annunciation of Smoke, Heat and Carbon Monoxide Detection
- Proximity Reader as standard
- IP reporting to Central Station
- Compatible with RF Range Tester
- Quiescent Current: 90mA
- Max. Current (in alarm): 300mA
- Temperature: -10 to +40°C
- Weight: 1,210g
- Size: 302mm x 190mm x 52mm
- EN 50131-1 Grade 2, Class II

*Up to 80 wireless devices in total
