

Auxillary Equipment - Wireless

BAT-PKRFSB6V

Extended 6V Battery Pack - RF SABB

ASSA ABLOY

Application:

A key advantage of HKC SecureWave wireless is that all detection devices carry the same battery. Therefore there is no need for stocking multiple battery types. The 3V lithium is supplied in the device when purchased and is also available in packs of 10. Product code is BAT-PKRF6V.

Specification:

- Six batteries per module
- Output = 6V / 4,200mAh
