SEN-W & SEN-WR

White ID Inertia Sensor &
White ID Inertia Sensor with Reed

HKC's Sensor represents the most advanced protection in sensor security. All vulnerable openings (i.e. windows and doors) fitted with a sensor unit can be analysed electronically in the control panel. In the event of an attempted break-in, the system is designed to activate before an intruder has gained access to the premises.

- White Inertia Sensor: SEN-W
- White Inertia Sensor with Reed Switch (MC): SEN-WR

Also available in Brown: i.e.: SEN-B & SEN-BR.

*Secure*Watch

Features:

- Current Consumption: nil
- Weight: 32g (main module)
              8g (magnet)
- Size: 70 x 25 x 32mm (main module)
           41 x 15 x 10mm (magnet)

- Temperature: -10 to +40°C
- BS 8243 & PD6662
- EN 50131-2-6 & EN 50131-2-8
- Grade 2 Class II
